The World Animal Health Information System (WAHIS) - Evolution to the new OIE-WAHIS

Dr Paolo Tizzani
Veterinary Epidemiologist World Animal Health Information and Analysis Department
World Organisation for Animal Health (OIE)

Rome, 5 February 2020
OIE has a long history in disease data collection and sharing.

1924

1996

2005

2020

117 OIE-Listed diseases

Handistatus

WAHIS

OIE- WAHIS

Legal obligation for all Member Countries to report to the OIE
During these years, not only the technology evolved, but also....

OIE has a long history in disease data collection and sharing

THE COVERAGE OF THE WORLD FOR THE INFORMATION COLLECTED

INCREASED TRANSPARENCY, EFFICIENCY, SPEED

1920s

28

206

TODAY

NUMBER OF REPORTING COUNTRIES AND TERRITORIES

182 OIE Members

24 Territories and Non OIE Members

Submit information to the OIE
OIE has a long history in disease data collection and sharing.

Technology evolution & collaboration between organisations

**SPECIFICITY & REACTIVITY**

Through active search of unofficial information

More than 20,000 items verified in 2019

- >15 languages
- >300 sources
- Daily activity

References:
- IBIS (Australia)
- Reference Laboratories (OIE network)
- GLEWS platform
- EIOS
- TRIPARTITE
- WHO
- Intelliriver Source
WAHIS is becoming OIE-WAHIS

- User friendly, intuitive, time-efficient.
- High resolution dynamic mapping
- Interoperability, integration and connectivity with other data and systems
- Open access of OIE WAHIS data

Facilitating reporting, promoting the use of data

NEW FUNCTIONALITIES – DATA MANAGEMENT

Easy data extraction and analysis

> Data extraction tools to download reports in several formats (i.e. PDF, XLSX, maps in PGN...)

Avoid duplicate data entry and exporting by connecting to other systems for reporting

> Interconnection, a catalogue for Application programming interfaces (API) standard connection (i.e. Animal Disease Information System - ADIS)
A dedicated interface for the consulting users allowing a better visibility, exposure and transparency

- Standard report for country information available in one click (quick and simple)
- Pre-formatted and personalized dashboards
- National/ regional animal health situation can be instantly monitored by consulting users
Thank you for your attention
