EXPLANATORY NOTE

(This Note is not part of the Regulations, but is intended to indicate their general purport.)

These regulations make provision governing the conduct of nursing homes. They require the managers (the person or persons registered in respect of a nursing home) to provide accommodation, care and staff of a satisfactory standard, and limit the number of persons who may be received into the home.

If the registration authority (normally the county or county borough council) consider that the regulations are not being complied with they may give notice to the managers to this effect, specifying what they consider should be done to satisfy the regulations. If, after the prescribed period of notice, the regulations are not complied with, the managers are liable to prosecution by the registration authority under section 1(2) of the Nursing Homes Act 1963.
